**ChrysPAC Data**  
*Project Analytics Connection*

# ChrysPAC Data

## *Project Analytics Connection*

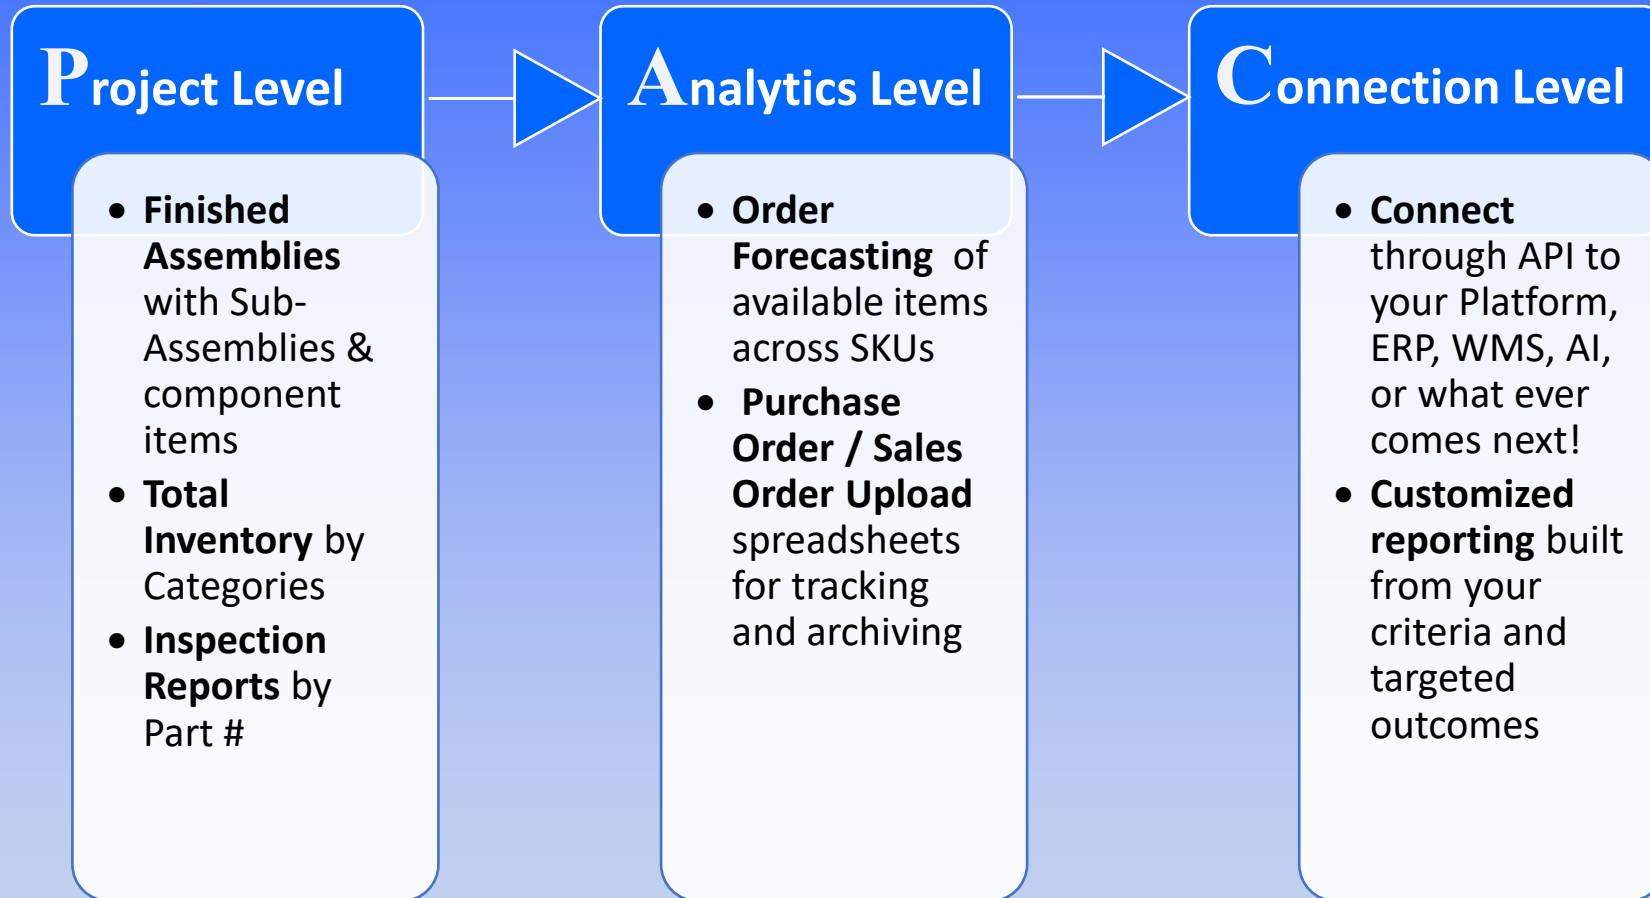

- **Inventory items are captured upon receipt and entered as quantity, category type, and item type**
- **Assembled or Kitted items are converted from raw material to Finished Assembly live from the production floor as technicians close their timesheet**
- **Project Order Forecasting confirms raw material quantity availability to complete Finished Assembly Orders across shared Stock Keeping Units (SKUs)**
- **Secure Customer Portal extends visibility of Inventory Dashboard with Order Forecasting, Upload Project Order request, Inspection Reporting and downloadable reports through a customer specific connection**
