

# POWERING INNOVATION

Chryspac's long-standing collaboration with GenEon Technologies showcases the power of precision manufacturing and true partnership. Since 2013, Chryspac has helped transform GenEon's innovative Immerse-A-Clean Wand from a non-working prototype into a reliable, production-ready product by solving complex wire assembly challenges, developing custom tooling, and ensuring consistent quality for a highly regulated application.

As Syd Williams, Co-Founder and President of GenEon Technologies, shares, "Without a doubt, I'd recommend them," highlighting the collaboration and trust that have defined the partnership for more than a decade.

## CUSTOMER VALUE SOLUTIONS

Reduce costs by outsourcing  
labor-intensive processes.

- Assembly of components to final packaging
- Quality inspection to prevent production shut downs
- Sorting saves useable inventory and reduce losses
- Parts re-work and repair of manufacturing flaws
- Testing and measurement to your specifications and requirements
- Packaging and kitting of large and small quantities
- Warehousing and fulfillment to your customers
- Inventory management to increase just-in-time response

We deliver real solutions that save you time, lower costs, and let you focus on what you do best.
